## **OceanSpar Announces New Authorized Dealer Relationships**

Dear OceanSpar Client:

OceanSpar is pleased to announce several new partnerships to strengthen our ability to supply your aquaculture equipment needs. We understand your focus on reducing operating costs and capital costs, and our new supplier partnerships will help you achieve those goals. We've recently completed the following agreements to help lower your offshore aquaculture costs:

- We are now an Authorized Dealer for the [Crosby Group's](#) line of marine hardware products. Crosby is the leading supplier of shackles and rigging supplies to the lifting and materials handling industry.
- We are now an Authorized Dealer for [West Coast Wire Rope](#) to supply anchors and chain. We are also working with West Coast to supply OceanSpar's unique line of Secure Ocean fittings, to be announced soon.
- We are now an Authorized Dealer for [Carmanah Technologies](#) to provide marine navigation lighting. We have successfully deployed Carmanah products on offshore aquaculture sites for more than ten years.
- We are now an Authorized Dealer for [Hosebun](#) to supply their patented line of urethane hose saddles. Hosebun is the leading supplier of hose suspension products for industrial and commercial applications.
- We are now an Authorized Dealer for [Orkot Marine Bearings](#) to supply non-corrosive marine bearings. OceanSpar recommends Orkot's high-performance grommets for use wherever rope transitions to steel.
- We are now an Authorized Dealer for [Carter Lift Bags](#) to supply standard and custom lift bags. OceanSpar clients use Carter Lift Bags on a variety of applications, including pen installation and equipment movement.

In the coming weeks, we also expect to announce close partnerships with high performance rope suppliers and other equipment manufacturers. Please also see our website (to be relaunched in the coming weeks) for a complete list of aquaculture partners. We look forward to continuing to work with you, and thank you for considering OceanSpar for your offshore equipment needs.

Sincerely,

**Todd Madsen**
