

**FOR IMMEDIATE RELEASE**

## **OceanSpar Partners with Cofradia de Conil in Spain**

**BAINBRIDGE ISLAND, WA – November 21, 2007** -- OceanSpar, the leading provider of submersible offshore fish pens, today announced a partnership with Cofradia de Pescadores de Conil under which Cofradia de Conil will represent OceanSpar products and services in Spain.

“The Cofradia team is one of the most experienced and successful aquaculture groups in Spain, and they are leading the growth in subsurface aquaculture there,” said Todd Madsen, President & CEO of OceanSpar, “We’re excited they have selected OceanSpar as their offshore infrastructure partner and will be promoting our products and services in this important market.”

Cofradia de Conil will represent OceanSpar’s line of SeaStation and AquaSpar fish pens, operating equipment and services throughout Spain. Cofradia de Conil will also manage a showcase offshore aquaculture site featuring the latest OceanSpar technology and solutions.

“Our partnership with OceanSpar and our showcase site for SeaStation confirms Cofradia de Conil’s position as the leading subsurface aquaculture company in Spain,” said Nicolás Fernández Muñoz, Managing Director of Cofradia de Conil, “We are looking forward to working closely with OceanSpar as the Spanish market for offshore aquaculture develops.”

### **About OceanSpar**

OceanSpar delivers highly engineered products and services to successful marine aquaculture companies. Our fish pens, mooring solutions and operating equipment give farm managers the technology, security, and performance they need to reduce operating costs and maximize yields. With over 50 offshore fish pen installations worldwide, OceanSpar has the solutions and experience to meet your operating needs.
